CHURCH OF ENGLAND PRIMARY ACADEMY

Children's Mental Health week was in February and the theme was Express Yourself. We supported this through activities in school encouraging children to think about what makes them happy as well as encouraging children to dress in colours and clothes that reflect how they are feeling. We were also delighted to receive a donation of cakes and bananas from The Co-op Supermarket in support of this event.

Day 5
Drawing or writing task
Make a photo collage today using photos that make you feel happy.

Talking or doing task
Spend some time taking photos of things that make you happy.

We've been covering some great topics in school and at home. Children in Reception have been enjoying their topic of Superheroes! They have been making cities, playing obstacle games and dressing up.

Year 1 have been exploring around the world, learning about different animals, continents, food, climates and oceans! They have been designing outfits for explorers and the children have worked so hard, at school and at home.

Year 2 have enjoyed a topic of 'Around the world in 80 days!' where they have drawn animals from different countries. Their reading has been spectacular and they are having fun doing online weekly quizzes and reading over zoom.

Year 3 & 4 have been learning about the Stone Age through to the Iron Age and have produced some amazing work. They have learnt about life as the 'early man', how people lived in those ages, tools they used and have compared how people lived then to now.

Year 5 and 6 have been learning about the Earth, Sun and Moon. This learning has included learning about the other planets of the solar systems, how day and night are experienced internationally and the phases of the moon. Children have also been experimenting with light and shadows and the colours of the colour spectrum. Art has included studying M.C.Escher and the mind boggling images he produces with children trying to reproduce some of his work!
