Part A: Pupil premium strategy plan

Statement of intent

At Tockwith CE Primary Academy, a targeted and strategic use of pupil premium funding supports us in achieving our vision:

To allow all pupils are able to live life in all its fullness - John 10:10

We ensure that high quality teaching and learning opportunities meet the needs of all the pupils.

We ensure that effective and appropriate provision is made for pupils who belong to vulnerable groups, through rigorous assessments of their needs.

We recognise that not all pupils who are socially disadvantaged are registered or qualify for free schools meals. We reserve the right to allocate Pupil Premium funding to support any pupil of groups or pupils the school has legitimately identified as being socially disadvantaged. A majority of any group will be made up of FSM children.

When making decisions about using Pupil Premium funding it is important to consider the context of the school and the subsequent challenges faced. This alongside research conducted by the EEF.

Strategy Aims for Disadvantaged Pupils	
Teaching - whole school strategies	<p>Spending on improving teaching might include professional development, training and support for early career teachers and recruitment and retention. Ensuring an effective teacher is in front of every class, and that every teacher is supported to keep improving, is the key ingredient of a successful school and should rightly be the top priority for Pupil Premium spending. ' Pupil Premium Guidance - EEF</p> <p>Focus</p> <p>Effective learning behaviours have emerged from the rich and diverse evidence base represented in the EEF guidance reports on improving behaviour, metacognition and self-regulation, special educational needs in mainstream schools, working with parents, and social and emotional learning.</p> <p>This will link closely with our Professional Growth Model.</p>
Targeted Approaches	<p>Evidence consistently shows the positive impact that targeted academic support can have, including on those who are not making good progress across the spectrum of achievement. Considering how classroom teachers and teaching assistants can provide targeted academic support, including how to link structured one-to-one or small group intervention to classroom teaching, is likely to be a key component of an effective Pupil Premium strategy. Wider strategy.</p> <p>Keen focus on assessment and how that can inform targeted intervention in the form or research based interventions and same day intervention.</p>
Wider Strategies	<p>Wider strategies relate to the most significant non-academic barriers to success in school, including attendance, behaviour and social and emotional support.</p> <p>Pastoral support is at the heart of our vision allowing children to 'live life in all its fullness'. Health and Well Being Surveys, proactive and reactive support by our pastoral lead.</p> <p>Attendance and Pastoral support is facilitated and analysed through the use of CPOMS</p>
